

Sycamore Maths

The questions are below for you to try and work out today. Remember about looking at the different intervals. Please make sure you watch my video below, which will really help you with this piece of work.

Maths video.

Write how much liquid is in each cylinder.

Cylinder 1:

Hint: There are 10 increments between 0 and 1l (1000ml).

Each increment is worth $1000\text{ml} \div 10 = 100\text{ml}$.

Cylinder 2:

Hint: There are 2 increments between 0 and 1l (1000ml).

Each increment is worth $1000\text{ml} \div 2 = 500\text{ml}$.

Cylinder 3:

Hint: There are 5 increments between 0 and 1l (1000ml).

Each increment is worth $1000\text{ml} \div 5 = 200\text{ml}$.
