

Staying in your room

At the moment,

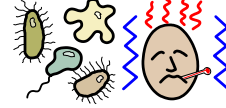

there is a bug going round.

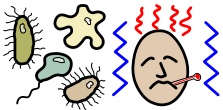

It's

called

Corona Virus.

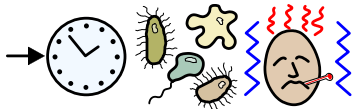

Corona Virus can make

people

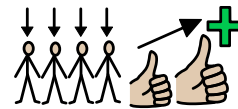

poorly.

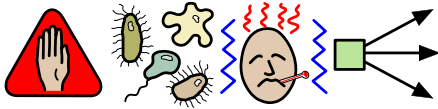

Until the bug

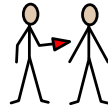

has gone away,

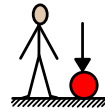

we need to try to keep everyone healthy.

To try to stop the bug spreading,

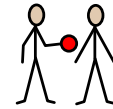

you need to

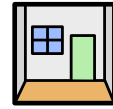

stay

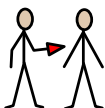

in

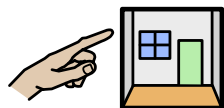

your

room.

If you need to

leave your room

you can ask staff.

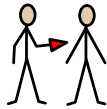

Staff

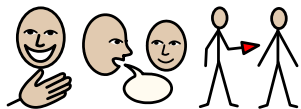

will

help

you.

Staff will tell you

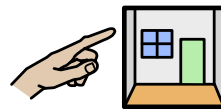

when

it is

OK

to

leave your room
